

The  
**SA GROUP**

Complete Turn-key EFIS Solutions

# Increase situational awareness with a **customized EFIS solution**

Scandinavian Avionics - The SA Group offers complete turn-key EFIS solutions from leading avionics manufacturers, such as Garmin, Universal Avionics Systems Corporation, Rockwell Collins, Honeywell, Sandel including equipment supply, certification, installation and after sales support.

# Join the future with EFIS

Upgrading to EFIS, dramatically increases the pilot's situational awareness and generally improves safety.

The cockpit displays, Primary Flight Displays (PFD) and Multi-function Display (MFD) provide information in an easy and uncluttered way, enabling the pilot to receive and consume a larger amount of information, thus making operating the aircraft less tiresome for the pilot.

**Scandinavian Avionics provides a variety of EFIS-systems, e.g:**

- ▶ Garmin
- ▶ Universal Avionics Systems Corporation
- ▶ Rockwell Collins
- ▶ Honeywell
- ▶ Sandel

## Worth noticing

According to the Blue Book, most aircraft increase in value in excess of the cost of having EFIS installed

# Before and After

The operator of the shown aircraft (Cessna Citation S550) chose to have EFIS installed but wanted to keep the NAV/COM control heads. The EFIS system in this aircraft is from Universal and the electronic engine instruments are from Sierra Industries.

The systems include more information and new functions - for instance supporting synthetic vision and JeppView, increasing the situational awareness drastically. Please notice the glare shield modification, which provides sufficient space for the flight instruments.

# Complete turn-key solutions

Scandinavian Avionics provides complete customized turn-key EFIS solutions:

- ▶ **Equipment**  
Supply of EFIS equipment and related parts.
- ▶ **Certification**  
Supply of existing STC or development of new STC depending on the aircraft type.
- ▶ **Installation**  
Installation of the EFIS solution at one of our facilities around the world or at any other EASA Part 145 approved facility.
- ▶ **Training**  
EFIS familiarization training as required.

If you need more information or are interested in discussing your possibilities to upgrade your aircraft with EFIS, please feel free to contact us.

Scandinavian Avionics provides complete turn-key avionics solutions, including avionics logistics and parts support, maintenance (MRO), certification, design & engineering, installation, product development, training and consultancy services with the primary business platforms being larger helicopters, corporate aircraft, regional airliners and defense electronics.

Scandinavian Avionics is the headquarters of The SA Group – an experienced avionics organization with divisions in Sweden, Norway, Greece, Malaysia, Bahrain and India. Since the foundation in Billund, Denmark in 1978, core values like quality, reliability and flexibility have been deeply rooted in the organization and are the main reasons for the excellent reputation among aircraft operators around the world today.
